Introduction: The school provides a vibrant environment with a wide range of opportunities beyond the classroom. A child's day at school is busy but fun as he or she typically juggles lessons with a variety of activities such as practice in a music ensemble, sports match and learning lines for the school play. Great importance is given to child's conduct and behaviour. School rules are few but firm and apply to pupils and staff alike. They are based on the principles of respect and consideration for others.

Honourable Deputy Commissioner Shri. Dharmendra Patle says:

Learning is seen as an opportunity to practically use the skills we learn in the classrooms and to apply these in a real life-setting. It is the KVS policy to employ teachers with outstanding professional credentials. This approach helps ensure that the highest quality of teaching and learning takes place in our classrooms, particularly in the areas of language, literacy and numeracy. It is heartening to note that KV MG. Rly. Col. Has come out with the II edition of CMP newsletter incorporating all the important events and happenings there.

Assistant Commissioner Shri P. C Raju speaks:

What sculpture is to block of marble, education is to the human soul- Joseph Addison
KVS works hard to create an environment where children enjoy learning and feel safe and confident to participate. We believe that children should have fun while they are at school and that mistakes are simply learning opportunities.

"We are glad to learn that KV. MG. Railway Colony is bringing out the second CMP Newsletter highlighting the various activities of the school."

From the Principal's Desk:

Creativity is seeing what everyone else has seen, and thinking what no one else has thought." rightly said by Albert Einstein. I am overwhelmed with immense joy as the primary department of our school is about to publish the second Newsletter for the academic year 2022 -23. It is the result of indomitable determination shown by a group of devoted teachers and students despite the pandemic situation. As education is an attempt to nurture the child into a better human being, its highly important to provide a platform to express their views and thoughts. This Newsletter gives wings to the imagination of tiny tots. I would like to appreciate the sincere efforts taken by teachers of Primary department under the guidance of Mrs. Rekha Hombal. HM.

Welcome from the Head Teacher:

It gives me immense pleasure in bringing out the second edition of newsletter of this academic year 2022-23. It is once again proven that nothing can hinder the hidden talents of our tiny tots. We have witnessed the best of creativities emerging from the young minds. The students of primary section of KV MG Railway have showcased their creativity in the form of their drawings, paintings, craft work, music, dances, reading etc. I congratulate the efforts of the students and the guiding hands who have helped them to navigate through the creation.
